Degree: Excellent
- Faculty of Economics and Political Science, Bachelor’s Degree in Economics obtained in 1999  
Degree: Very Good With honors (*the fifth of the economic Section*)

### II. EXPERIENCE

- Lead Economist at the Egyptian center for Public opinion research (Baseera):  
(April2022-Current)
  - I participated in a evaluating the wheat subsidy program in Egypt with the World Bank and the Ministry of Supply and internal Trade following the methodology of FAO on 'Price Incentive Analysis'.
  - I prepared technical reports which analyzed the results of public opinion surveys.
  - I prepared mid-term and final evaluation reports for several development projects, such as climate resilience projects in Egypt.
  - I participated in organizing a series of workshops on the importance of gender-sensitive statistics.
  - I wrote several economic working papers on a range of socio-economic topics.
  - I assessed the impact of laws, and policies on various agents and sectors in Egypt.
  - I have prepared case studies of several social protection programs in Egypt.
  - I was involved in assessing the impact of various health reform policies and aid programs in Egypt.

▪ Economic consultant at Egyptian Iron and Steel Association:

(September 2019-January 2021)

- I developed the English and Arabic WEB content
- I forecasted the future of steel demand
- I Prepared many policy notes that are submitted to policy makers in Egypt concerning the major obstacles to steel industry in Egypt.
- I participated, in cooperation with Faculty of Engineering -Cairo University, in conducting a technical paper about the impact of applying safeguard measures on imports of iron sheets and development fees.
- I participated, in cooperation with Faculty of Urban Development- Cairo University in conducting a study about "the importance of determining the new urban districts in Egypt"
- I Prepared a study titled "Major Challenges to Iron and Steel Industry in Egypt and The Needed Policies to Overcome Those Challenges"

▪ Head of Information Unit at the technical office of the minister of trade and industry:

(August 2018-Present)

My responsibilities included analyzing economic indicators, providing technical support to develop public policies, and consulting with various stakeholders. It also included the formulation of overarching issues, consultations with the private sector, the presentation of sound views, comprehensive reports and public presentations, particularly around trade and industry.

e.g.

- Preparing the "Conceptual Framework for Export- orientation strategy for the African market" in cooperation with the Industry Modernization Center (IMC), the Egyptian Commercial Service Sector (ECS), and the Export Development Fund.
- Writing the technical report on "Reasons Behind the Raise of Merchandise Imports to Egypt: short and medium-term plan to address this structural crisis in Egypt".
- Setting a plan for industrial complexity and development aiming at increasing the value added of Egyptian exports" and revising the Egypt's export incentive scheme.
- Writing the technical report on "Cars imports in Egypt: What will the impacts of the tariff elimination imposed on cars with the European Union 2019"
- Writing the technical report on "The impact of the Turkish currency crisis on the Egyptian foreign trade"
- Writing the technical Analysis of Egypt's foreign trade of iron and steel products: what is the alternative policy space within the obligations of WTO to protect domestic industry in Egypt from unfair practices in international trade"
- Writing an early warning report titled "The expected invoice for Egypt's grain imports over the next two years (2019-2020)".
- Writing the technical report on the most strategic commodities such as supply of sugar, grains, vegetables, oils, meat, fish and poultry

▪ Senior Anti- Dumping Investigator at the Trade Remedy Sector:

(March,2017 until August 2018)

I participated in the anti-dumping investigation against steel imports coming from China, Turkey, and Ukraine. I was a member of the verification visit to three key producing companies in Turkey. Moreover, I was a member of the defense team against the anti-dumping case raised by Turkey against an Egyptian producer of Fiber Glass.

▪ Senior Economic Researcher at the Technical office of the minister of Trade and Industry:

(March 2007until March 2017)

My job responsibilities included preparing working papers about most pressing economic problems. concerning industrial and trade issues. It also included analyzing and following up the Egyptian foreign trade indicators and drawing policies notes. furthermore, I was responsible for following up market surveillance to highlight hot issues and crises related to the most basic goods like steel- rice – sugar.

e.g.

- Work closely with decision maker involve me in all aspects related to industrial and trade strategies, tasks include provision of technical advice on issues related to both strategies.
- Conducting in depth analysis on issues of relevance to industrial policy and preparing policy notes.
- Setting targets for key performance indicators of relevance to industry in the SDS 2030.

▪ Economic Researcher at Ministry of Foreign Trade & Industry

(July 2000 until March2007)

I was responsible for analyzing the Egyptian foreign trade and finding potential markets and goods for enhancing Egyptian exports.

e.g.

- “Arabic intra-trade the present and the future “
- “Trade in services possibilities and challenges “
- “Russia as a potential market for Egyptian exports “
- “Iran as a potential market for Egyptian exports “
- “Marketing Egypt exports of durable goods ”

▪ Economic Researcher at Information and Decision Support Center (IDSC)

(April 2000 until Septmber2000)

- I participated in making monthly bulletin “Foreign Trade in Egypt”
- I analyzed foreign trade of the multi-national companies in Egypt.
- I built foreign trade database for Egypt &Arab countries.
